Installation Instructions

French Door Glass Panel Insert

A SAFTEY REMINDER!

Always wear eye protection and gloves when appropriate.

Tools Needed: Two people and a screwdriver

STEP 1: Remove the screw hole covers from the inside frame around your existing glass.

STEP 2: Use a screwdriver, to remove all of the screws from the inside frame around your existing glass while your partner stands on the opposite side to ensure the glass doesn't fall.

STEP 3: With the help of your partner on the inside gently pushing around the perimeter of the glass remove the glass from the exterior side of your door and carefully set it aside.

STEP 4: Now that your glass is removed take your old inside glass frame from STEPS 1 & 2 and screw it back on to the exterior portion that is holding your glass. (we recommend safely storing the glass in your home or garage in case you ever need to reverse this project).

STEP 5: Before installing your new French Door Glass Insert with pet door be sure to clean and/or wipe down the inside and outside surface of your door around the cut out where the glass was removed.

STEP 6: Once you have taken your new French Door Glass Insert out of the box and are ready to install,l remove the plastic interior glass frame (the side with the screw holes) and set it aside near your work area.

STEP 7: Take the outer portion of your new French Door Glass Insert (the half with the frame, the pet door, and the glass) and lift it up into the rough cut out opening of your door from the outside. For safety be sure that your partner is standing directly inside to keep the glass from falling.

STEP 8: Once you have the outside portion held in place from the outside of the door your partner inside will grab the frame you took off and set aside (from STEP 6), install it on the inside of the door and insert screws using screwdriver.

STEP 9: To ensure a good weather seal you can run a bead of silicone sealant around the outside perimeter of the French Door Glass Insert Frame where it meets the surface of the door.
